

Discovery Flight

\$85 Cessna 152

\$100 Cessna 172

Have you ever wanted to fly or wondered what it would be like?

You can find out in a "Discovery Flight Lesson"

www.t-craft.org

You will receive a 2 hour introductory flight lesson with one of our FAA certified instructors. You will participate in the pre-flight inspection, be briefed on take off, basic maneuvers, approach and landing at the Nampa Airport. The flight itself will take an approximately 30 minutes in which you will be at the controls most of the time. This will familiarize you with the airplane, the airport and the general awe of taking the controls. After the flight, the instructor will answer your questions and discuss the requirements, training materials, typical time and cost it will take to earn your pilot certificate. You will log flight time and receive a certificate which will count towards your flight training hours. For an additional 30 minutes of flight time (1 hour), the prices are: \$115 in the C152 or \$135 in a C172

Who knows - this flight could be the beginning of a lifelong passion.

Don't forget your camera, you will want to record this possibly life changing event.

The Cessna 152 is a two seat airplane, the most popular training aircraft of all time. It has a capacity for approximately 200 pound passenger/student.

The Cessna 172 is a 4 seat airplane, and also a very popular training aircraft. You can bring up to two passengers on the discovery flight at no additional cost (total weight of party not to exceed 450 pounds).

Discovery flights can be purchased as a gift certificate good up to one year.

To purchase a flight, contact one of the instructors listed below. For more information about T-Craft Aero club and/or learning to fly, visit www.t-craft.org.
